Note that the House should provide a first class p.a for the event, four live floor wedges and an xlr feed to the drummers in ear system and all cable and mic stands. No drum riser, please. It is possible that the drummer will use a cajon and percussion set up, but this will be the same number of channels.

We tour and will provide a soundcraft small footprint digital sound console and 50m of cat5 to our own xlr stagebox along with all Mics and Di boxes.
